

# Jester Juice

Recipe for a tasty tropical libation...

One part (can) each of Passionfruit Pineapple blend (or one of each), Tamarind, and Soursop (Guanabana) Nectars

(these can usually be found in the Latin section of the grocery from Goya or Jumex)

One can Coco Lopez or Goya Cream of Coconut

¼ part (10 count) of sour mix or lime juice

Mix up in a container with a good shaking

***Don't forget the Rum! I use...***

1 ½ ounces (5 count) of Cruzan Gold rum

½ ounce (2 count) of Cruzan Vanilla Rum

Lots of love and good times

Pour rum into a cup with ice, juice mix to fill the rest up, pour into shaker to blend and serve with grated nutmeg on top

Put on some Bob Marley, Jimmy Buffett or Kenny Chesney and enjoy!!

If you can't find these exact nectars...any tropical juices along with coconut cream will work, just add a little more love and rum!
